PROJECT HANDLED

PizzaExpress: It's a POS development website in which I have developed whole website and added many features as per client requirement. - thepizza.express

StartEngine: This is an Investment related website in which I have worked on Front-End part with custom template in WordPress. startengine.com

ClockSession: It's an internal site of Corpfield in which I have developed whole website with CPT, plugins and theme customization- clocksession.com

CodeArrest: It's an internal site of Corpfield in which I have worked on design and development with custom post type, plugins and theme customisation - codearrest.com

Contiom-Plugin: It's an plugin development in which I have worked on change the default things in WordPress and bug fixes

Regenesys.net: Revamped the main institutional website from scratch based on Figma designs. Used Elementor Page Builder to build dynamic and responsive pages. Integrated multiple plugins to support performance, SEO, and lead capture functionalities.

Kenya.regenesys.net: Redesigned the Kenya-specific regional website following the Figma layout. Implemented Elementor for design consistency and added necessary WordPress plugins for local marketing and academic content delivery.

Nigeria.regenesys.net: Handled a complete rebuild of the Nigeria branch website using Elementor and custom styling. Ensured optimized speed and implemented custom plugin functionalities for region-specific operations.

India.regenesys.net: Led the website revamp for the India division using Figma-based designs and Elementor. Developed custom page sections and integrated tools for enquiry forms, analytics, and localization.

Regenesys.net/reginsights: Built a dedicated blog platform using WPBakery Page Builder with a clean, content-focused layout. Customized the theme and optimized for SEO and readability to support thought leadership content.

OnePlusHolidays.com: Designed and developed a global travel and tourism website from scratch using WPBakery. Created custom layouts for destinations, packages, and inquiry forms.

Mywealthinvestments.co.za: Worked on the complete development of a finance-based WordPress site. Integrated investment tools, financial forms, and plugins ensuring performance and security.

Edforall.study: Built and managed a WordPress-based educational platform. Focused on accessibility, course listing integration, and mobile responsiveness.

Popup Scroll Plugin (Custom Development): Created a custom WordPress plugin that triggers a popup based on user scroll depth. Used for lead capture and special announcements across various project websites.

Gravity Forms - Vine CRM Integration: Integrated Gravity Forms with Vine CRM, the company's in-house customer relationship management system. Utilized custom API functionality to ensure real-time data transfer from form submissions directly into Vine CRM, enabling efficient lead tracking and automation for the marketing and admissions teams.
